

IRAN: A NATION OF BLOGGERS
behind the scenes

CREATED BY HENDY SUKARYA, AARON CHIESA, LISA TEMES, AND TORU KAGEYAMA

INSPIRATION

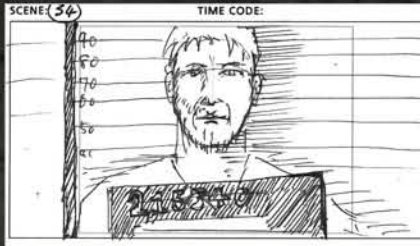

Our infographic takes inspiration from movies such as *Perspolis* and art by Nikki McClure and Lotte Reiniger. The narration begins with Iran's history. We wanted to keep the mood slightly somber for this scene, so we used black, white and a few desaturated colours. As the narrator begins to talk about the revolution we begin incorporating more colours to represent the modernization taking place.
